Dear Sir:

The Examiner discovered upon examination of a continuation patent application (serial no. 10/859,660) of the above-referenced issued patent that one of the copies of the Oath and Declaration submitted contained an additional inventor (Greg A. Arnold) when compared to the other copies. Further, that copy of the Oath and Declaration, although indicating that Greg Arnold is an inventor did not include his signature. Upon noticing this inconsistency (not previously addressed by the Patent Office), the Examiner of the continuation application recently

CERTIFICATE OF TRANSMISSION

I hereby certify that this paper (along with any referred to as being attached or enclosed) is being transmitted via electronic filing (EFS-Web) on the date shown below to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Patent No.: 6,836,845

issued a PTO notice dated May 19, 2008, requiring the Applicants to correct this issue by either submitting a supplemental Oath and Declaration providing the signature of Greg A. Arnold or deleting him as an inventor. The notice indicates that failure to provide such a correction will result in abandonment of the continuation application.

On reviewing all the files and records relating to this issued patent provided by prior counsel, a signed Oath and Declaration from inventor Greg A. Arnold was discovered. This document was obviously inadvertently omitted by prior counsel and went unnoticed by the Patent Office. The undersigned is submitting the Oath and Declaration signed by Greg A. Arnold with respect to Patent No. 6,836,845. A copy of the concurrent submission in the continuation application is also attached here as Exhibit A.

Currently, there are only three inventors named on the face of the issued patent, which should be corrected to name all four inventors, specifically:

- 1) Greg A. Arnold,
- 2) Robert Lennie,
- 3) Carl Chen, and
- 4) Gabe Dalbec.

In compliance with 37 CFR 1.63 (b)(1)¹, the supplemental Oath and Declaration submitted now identifies the title of the specification to which it is directed, that of the above-

¹ MPEP section 602:

I. VI. IDENTIFICATION OF APPLICATION

37 CFR 1.63 requires that an oath or declaration identify the specification to which it is directed. The declaration form suggested by the Office includes spaces for filling in the names of the inventors, title of the invention, application number, filing date, and foreign priority application information. While this information should be provided, it is not essential that all of these spaces be completed in order to adequately identify the specification in compliance with 37 CFR 1.63(b)(1).

The following combination of information supplied in an oath or declaration filed on the application filing date with a specification are acceptable as minimums for identifying a specification and compliance with any one of the items below will be accepted as complying with the identification requirement of 37 CFR 1.63:

- (A) name of inventor(s), and reference to an attached specification which is both attached to the oath or declaration at the time of execution and submitted with the oath or declaration on filing;
- (B) name of inventor(s), and attorney docket number which was on the specification as filed; or
- (C) name of inventor(s), and title of the invention which was on the specification as filed.

Filing dates are granted on applications filed without an oath or declaration in compliance with 37 CFR 1.63, the oath or declaration being filed later with a surcharge. The following combinations of information supplied in an oath or declaration filed after the filing date of the application are acceptable as minimums for identifying a specification and compliance with any one of the items below will be accepted as complying with the identification requirement of 37 CFR 1.63:

Patent No.: 6,836,845

referenced issued patent (the same specification as the continuation application 10/859,660) and it identifies all four inventors, specifically:

- 1) Greg A. Arnold,
- 2) Robert Lennie,
- 3) Carl Chen, and
- 4) Gabe Dalbec.

and includes their signatures.

This declaration does not reference the serial because it was signed before the serial number was assigned by the U.S. Patent Office. Moreover, three of the four inventors are no longer employees.

Therefore, the Patent Office is respectfully requested to accept this declaration and to issue a certificate of correction naming all four inventors in the above Letters Patent. A copy of PTO 1050 (Certificate of Correction) is also enclosed.

Should the Examiner or any of the personnel handling this matter at the Patent Office have any questions about this submission, he or she is invited to call the undersigned to expedite resolution thereof. Please charge any fee set forth required for this submission, or any other fee or credit any overpayment, to our Deposit Account 50-3102.

Examiner of the continuation application recently issued a PTO notice dated May 19, 2008, requiring Applicants to correct this issue by either submitting a supplemental Oath and Declaration providing the signature of Greg A. Arnold or deleting him as an inventor. The notice indicates that failure to provide such a correction will result in abandonment of the continuation application.

On reviewing all the files and records relating to the parent issued patent provided by prior counsel, a signed Oath and Declaration from inventor Greg A. Arnold was discovered. This document was obviously inadvertently omitted by prior counsel and went unnoticed by the Patent Office. The undersigned is submitting a supplemental Oath and Declaration signed by Greg A. Arnold with respect to Patent No. 6,836,845. Therefore, there are four inventors, specifically:

- 1) Greg A. Arnold,
- 2) Robert Lennie,
- 3) Carl Chen, and
- 4) Gabe Dalbec.

In compliance with 37 CFR 1.63 (b)(1)¹, the Oath and Declaration identifies the title of the specification to which it is directed, that of the parent issued patent (the same as the present application) and identifies all four inventors, specifically:
